Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims is that the prior art does not teach or suggest that a monoclonal antibody homoconjugate comprising the specific recited species of monoclonal antibody would have antineoplastic activity, when one of the monoclonal antibodies which it comprises both lacks an Fc region, and does not exert anti-neoplastic activity when unconjugated. These limitations are recited in all of the allowed claims.

It is further noted that a homoconjugate must contain only a single species of antibody. If a conjugate contains more than one species of antibody, it would be considered a heteroconjugate. (See page 8, line 14-18 of the specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer Hunt, whose telephone number is (703) 308-7548. The examiner can normally be reached Monday through Thursday 6:30am to 5:00pm.
